

## **Susan S. Hubbard**

Associate Laboratory Director, Earth and Environmental Sciences

Senior Scientist

Lawrence Berkeley National Laboratory

510-486-5266; sshubbard@lbl.gov

---

### **Professional Positions:**

- Associate Laboratory Director, Earth and Environmental Sciences Area: Staff of 480, including premier Energy Geoscience and Climate & Ecosystems Science Divisions with significant research portfolios in climate science, terrestrial ecosystem science, environmental and biological system science, fundamental geoscience, and subsurface energy strategies (such as carbon sequestration, geothermal, nuclear and fossil energyenergies), 2015-Present
  - UC Berkeley, Environmental Science, Policy and Management, Adj Professor 2015-Present
  - Senior Geological Scientist, Berkeley Lab: Lead or co-lead of several large, multi-disciplinary, multi-institutional team projects, including PI of the DOE 'genomes-to-watershed' subsurface scientific focus area (SFA) and co-PI of the DOE's Next Generation Ecosystem Experiment-Arctic (NGEE-Arctic) project, 2010-Present
  - Director, Earth Sciences Division, Berkeley Lab, 2013-2015
  - Deputy Director for Programs, Earth Sciences Division, Berkeley Lab, 2010-2013
  - Program Lead, Environmental Remediation and Water Resources Program, 2004-2010
  - Staff Geological Scientist, Berkeley Lab. Substantially contributed the development of fields now known as hydrogeophysics and biogeophysics. Applied developed methods to improve understanding of complex subsurface functioning relevant to environmental remediation, water resources, agriculture and ecosystems, 2002-2010
  - Group Lead, Environmental Geophysics, Berkeley Lab, 2003-Present
  - Geological Scientist, Berkeley Lab, 1998-2002
  - Geophysicist, ARCO Oil and Gas Co. With the advent of horizontal drilling, developed new ways to use geophysical methods to explore for hydrocarbons in fractured formations. Interpretations and drilling recommendations led to the development of the company's largest onshore asset, 1990-1993
  - Geologist, U.S. Geological Survey, Menlo Park, CA. Collected, processed and interpreted seismic datasets to interpret deep crustal structure, 1985-1987
- 

### **Education:**

- Ph.D., Civil and Env. Engineering, UC Berkeley, 1998
  - M.S., Geophysics, Virginia Tech, 1990
  - B.S., Geology, University of California, Santa Barbara, 1985
  - Prof. Cert, UCB Haas School of Business Executive Leadership Program, 2011
  - Prof. Cert, Winemaking and Viticulture, UC Davis, 2009
-

### **Advisory, Director & Editorial Positions (partial list):**

- 2015-Present, Director's Council, UC Water
- 2015-Present, Advisory Board: Interoperable Design of Extreme-Scale Application Software (IDEAS)
- 2014-Present, Council Member: California Council of Science and Technology (CCST)
- 2014-Present, Sr Advisor: DOE Advanced Simulation Capability for Environmental Management (ASCEM)
- 2014-Present, Advisory Board: Radionuclide Waste Disposal: Development of Multi-scale Experimental and Modeling Capabilities, EPSCoR Program, Clemson
- 2010-2015, Advisory Committee: DOE Biological and Environmental Research Advisory Committee (BERAC)
- 2010-2015, Associate Editor: JGR-Biosciences
- 2013-2015, Helmholtz Association Review Committee: Terrestrial Environment Program Review Committee
- 2014, Advisory Committee: GPR2014
- 2012, Review Committee: Dept of Energy Resources Engineering, Stanford
- 2011-2013, Advisory Board: SmartGeo NSF IGERT, Colorado School of Mines
- 2010, Advisory Committee: DOE Environmental Management Technical Committee
- 2007-2013, Co-Editor: Vadose Zone Journal
- 2007-2012, Associate Director, Berkeley Water Center, UC Berkeley
- 2007-2010, Associate Editor: Journal of Hydrology
- 2006, Advisory Board: Forschungszentrum Julich German National Laboratory
- 2002-2006, Founder and First Chair, AGU Hydrogeophysics Technical Committee
- 2001-2005, Associate Editor: Water Resources Research

---

### **Awards and Recognitions (partial list):**

- 2014, Distinguished Alumni, Civil and Environmental Engineering Academy, UC Berkeley
- 2014, Society for Technical Communication, Distinguished technical communication award
- 2013, Outstanding Women @ Berkeley Lab recognition
- 2011, Fellow, Geological Society of America
- 2010, Birdsall-Dreiss Distinguished Lecturer, Hydrological Sciences GSA
- 2009, Frank Frischknecht Leadership Award, SEG Near Surface Geophysical Society
- 2009, Top Associate Editor Award, Journal of Hydrology
- 2008, 'Most Influential Article', SEG Leading Edge recognition
- 1998, Dissertation Award in Water Processes, Univ. Council on Water Resources
- 1994, Jane Lewis Fellowship, UC Berkeley
- 1993, Antonia Fung Memorial Fellowship, UC Berkeley
- 1993, Maybelle B. Tucker and John T. Tucker Fellowship, UC Berkeley
- 1991, ARCO Co-Worker Achievement Award
- 1990, Cooper Award for Appalachian Research Advances, Virginia Tech
- 1989, AMOCO Oil Fellowship, Virginia Tech
- 1988, ARCO Fellowship, Virginia Tech
- 1988, Aubrey E. Orange Award for Excellent scholastic achievement, Virginia Tech
- 1988, Chevron Fellowship, Virginia Tech

- 1986, Top Geological Sciences Major Award, UC Santa Barbara
- 1985, Outstanding Senior in Geological Sciences Chevron Award, UC Santa Barbara
- 1984, Outstanding Woman in Petroleum, Ventura County Scholarship
- 1984, Outstanding Junior in Geological Sciences Union Oil Award, UC Santa Barbara

---

### **Service to Scientific Community & DOE (partial list)**

- 2015, BRN-EM (Basic Research Needs for Environmental Management) lead, subsurface flow and transport panel. BRN jointly sponsored by DOE BES, BER and ASCR
- 2015, National Laboratory Engagement Day, Technical lead for DOE Subsurface Science, Washington DC
- 2015, Co-organizer, Water Energy Co-evolution DOE-UC workshop, Riverside, CA
- 2014-Present, Co-lead, Subsurface crosscut 'big idea'. Working with DOE applied energy offices and 13 National Labs to develop a program plan to enable adaptive control of subsurface fractures, reactions and flow, as needed to transform the use of subsurface resources for both energy production and energy waste storage
- 2014, Session Co-Chair, Charactering Spatiotemporal Variability of Biogeochemical and Hydrological Processes across Scales, AGU San Francisco, CA
- 2014, Session Chair, Subsurface fracture control, Rock and Fluid Physics Conference, Shell Technology Center, Amsterdam
- 2014, Conference Co-Chair, Complex Soil Systems SSSA/Bouyoucos Conference, Berkeley, CA
- 2012, Session Chair, Geophysical Characterization of Permafrost Systems, Fall AGU, San Francisco, CA
- 2012, Lead Author, Technology Innovation 'Virtual Laboratory' Report, Response to Dr. Bill Brinkman request to DOE-BERAC (DOE/SC-0156)
- 2010, Co-author, DOE-SC "Grand Challenges for Biological and Environmental Research: A Long Term Vision" (DOE/SC-1035, 2010)
- 2010, Co-author and workshop co-lead, DOE-BER "Complex System Science for Subsurface Fate and Transport" (DOE/SC0123, 2010)
- 2010, Contributor, DOE-EM Long-Range Deep Vadose Zone Program Plan (DOE/RL-2010-89, 2011).
- 2010, Session chair, Computational Methods in Water Res., Barcelona, June 2010,
- 2010, Session Chair, Goldschmidt conference, Session Chair Knoxville, TN, June 2010.
- 2010, Co-author, DOE-EM Scientific Opportunities to Reduce Risk in Groundwater and Soil Remediation (PNNL-18516).
- 2008, Co-organizer, Computational Methods in Water Resources Conference, San Francisco
- 2008, Co-organizer, Chapman Conference, Biogeophysics, Portland Maine
- 2006, Contributor, presenter-DOE BES Basic Research Needs for Geosciences: Facilitating 21<sup>st</sup> Century Energy Needs
- 2002-2006, Chair, AGU Hydrogeophysics Technical Committee
- 2002-2006, US representative, International Association of Hydrological Science "2020 Working Group"
- 2004, Panelist, DOE BES workshop noninvasive monitoring, Houston, Texas
- 2005, Panelist, DOE EM Geop.Characterization and monitoring workshop
- 2005, Chair, Watershed Characterization Special Session, Fall AGU, San Francisco, CA

- 2004, Chair, Hydrogeophysics Special Session, Fall AGU, San Francisco, CA
- 2003, Chair, Hydrogeophysics Special Session, Fall AGU, San Francisco, CA
- 2003, Organizer, Coupled Processes DOE Workshop, LBNL, Berkeley CA,
- 2003, Chair, Coupled Processes DOE Subsurface Science Session, EMSP, WA
- 2002, Founder, AGU Hydrogeophysics Technical Committee
- 2002, Co-Organizer, Hydrogeophysics Advanced Study Inst., Czech Republic
- 2000, Chair, Breakthroughs in Field Scale Bacterial Transport, Fall AGU, San Francisco, CA

---

### **Invited, Keynote and Plenary Speaking Engagements**

- American Geophysical Union, Climate-driven changes to terrestrial hydrology and biogeochemistry, San Francisco, Dec 2015
- Water Resource Sustainability Issues on Tropical Islands Speaker, Next-Generation Geophysical Characterization of Watersheds. Honolulu, HI, December 1, 2015
- UC Merced Environmental Systems Speaker, Seminar Series: Geophysical approaches for quantifying biogeochemical responses to hydrological perturbations in terrestrial systems, November 2015
- European Geophysical Union Invited Speaker, Above and below ground characterization of Arctic functional zones, April 2015
- University of Wyoming's Distinguished Lecturer Series, Terrestrial environment functional zones: identification and quantification using geophysical methods, Nov 24, 2014
- Complex soils systems 2014 conference, Invited Opening Presentation, Berkeley, Sept 3, 2014
- Invited presentation to Jason group on 'State of Stress in the Engineered Subsurface' June 20, 2014
- US Energy Association, Research needs in Subsurface energy science, July 23, 2014, Arlington VA
- Invited presentation, Adaptive Control of Fractures and Reactions, Shell subsurface complexity workshop, Amsterdam, Sept 2014
- Geophysical quantification of ecosystem processes across scales and system compartments, ESPM UC Berkeley seminar series, April 2014
- DO Subsurface Biogeochemistry and Terrestrial Ecosystems PI Meeting, Invited Speaker, Maryland, May 2014, Identifying ecosystem controls through joint use of above and below ground datasets
- AGU invited speaker, Characterizing Controls on Terrestrial Environment Functioning Across Scales using Geophysical Datasets, San Francisco, Dec. 2013
- Energy Biosciences Seminar Series, Berkeley, CA April 15, 2013, Advanced modeling and monitoring of microbially-mediated petroleum reservoir processes,
- Keynote Presentation, Washington Hydrology Symposium, Tacoma, WA March 2013
- Stanford Environmental fluid mechanics and hydrology colloquium, Feb 2013
- AGU 2012 Invited speaker, Advanced approaches for characterizing and exploiting micro-terroir, Invited presentation, H53F-1586 AGU, San Francisco, CA, 3-7 Dec. 2012.
- AGU 2012 invited speaker, Quantifying physicochemical heterogeneity and critical transitions that influence plume behavior using geophysical approaches and reactive transport

modeling, Abstract H33N-01, presented at 2012 Fall Meeting, AGU, San Francisco, CA, 3-7 Dec. 2012.

- Invited speaker, New Perspectives in Integrated Monitoring, Assessment and Management in the Water Sector, Water Research Horizon Conference, Berlin. 'Strategies to observe hydro-biogeochemical states and processes across scales and compartments', July 8-10, 2012
- European Geophysical Union invited speaker 2012, Quantifying and Relating Subsurface and Land-Surface Variability in Permafrost Environments using Surface Geophysical and LIDAR Datasets, Vienna, April 2012
- Battelle Chlorinated Conference Keynote platform presentation, Characterization of the Distribution of Hydraulic Fractures and introduced Amendments using Geophysical Approaches, May 23-27, 2012, Monterey CA
- DOE-BERAC invited presentation, Geophysical Signatures of Subsurface Microbially Mediated Processes: Toward Quantifying In-Situ Ecosystem Functioning, 2011
- New Frontiers in Engineering Science for Sustainability, Texas A&M NSF Water Scholar Seminar, Invited, Nov 2011
- Univ Nevada Las Vegas seminar speaker, Feb 2, 2011
- Duke University distinguished seminar, Feb 23, 2011
- Advanced DOE Simulation Capability Workshop, ASCEM overview invited Presentation, Wash DC, Jan 2011
- Rensselaer University Invited seminar, May 4, 2011
- NSF Water scholar seminar series keynote, Texas A&M, College Station, November 2011
- Univ of Wisconsin, Madison invited seminar, Sept 2010
- Argonne National Laboratory distinguished speaker, Sept 2010
- Northern Illinois University, Dekalb, seminar, Sept 2010
- Michigan state, East Lansing, Oct 2010
- Grand Valley University, Michigan, Oct 2010
- Groundwater Research Association distinguished speaker, Sacramento, August 2010
- Inland Geological Society invited speaker, Riverside, CA, July 2010
- Keynote, Computational Methods in Water Resources Keynote Barcelona June 2010
- UC Davis Hydrological Seminar Series, June 2010
- National Groundwater Summit Keynote, Denver, CO April 2010
- UC Berkeley Civil and Environmental Eng. Seminar Series, April 2010
- DOE ERSP Annual PI meeting Invited speaker, March, Wash DC 2010
- Distinguished Environmental lecture, Florida International University, Feb 2010
- University of Florida Spring Seminar Series, Feb. 2010
- Delaware Environmental Institute Distinguished Lecture, March 5, 2010
- UMass Environmental lecture Series, March 9, 2010
- K. Douglas Nelson Lecture Series, Syracuse University, March 11, 2010
- Semi-Annual Dawdy Invited Lecture, Department of Geos., San Francisco SU Sept 2009.
- Oregon State University Geoscience Seminar Series, Jan 21, 2010
- Portland Environmental Geology Seminar Series Jan 2010
- New Mexico Tech Hydrology Seminar, Dec 10, 2009
- LANL's Frontiers in Geosciences' Distinguished Colloquium, Dec 2009
- AGU Invited speaker, Fall 2009 San Francisco, Dec 15, 2009

- AGU invited speaker, Spring 2009, Toronto Canada
- Stanford Environmental and Fluid Mechanics Seminar Series, Invited Seminar, 11/08
- Association for Env. Health and Sciences Invited platform speaker, San Diego, 303/09
- U.S.G.S. Water Research Division Seminar Series, 09/2008
- Gordon Conference Invited Speaker, Flow in Porous Media, Oxford England, 07/08
- NRC Workshop on Uncertainty, sensitivity and parameter estimation for multimedia environmental modeling, 7/07
- AGU invited speaker, Fall Meeting 2007, San Francisco
- UC Davis Engineering Seminar Series, 5/07
- AGU invited speaker, Fall Meeting 2006, San Francisco
- Geological Society of America invited speaker, Philadelphia, 11/06
- Groundwater Resources of California, Long Beach, 10/06
- Oregon State University 'World-Class Women in Water' seminar series, 05/06
- UCB Seismological Laboratory Spring 06 Seminar Series, 3/06
- Platform speaker, Computational Methods in Water Resources (CMWRC), Copenhagen, 06/06
- Invited Keynote, IWAGPR Conference, Delft, Netherlands, 5/05
- UC Merced Environmental Seminar Series 9/04
- PGE Distinguished Shell Speaker, UT Austin, 11/04
- Waste Management Conference Keynote, 2004
- AGU 'Union Frontier' Lecture, Spring Meeting 2005, Montreal
- Keynote DOE Characterization and Monitoring Workshop, Salt Lake City, 2004
- Univ of Buffalo, UB Geology Pegrem Speaker Series 3/04
- University of Kansas at Lawrence, Seminar Speaker, 4/04
- USGS Water Resources Seminar, Menlo Park, CA 5/04
- Heiland Distinguished Lecturer, Colorado School of Mines, Golden, Co, 2/03
- Vadose zone characterization Series, University of Arizona at Tucson, 3/03
- NRC-180 Precision Agriculture Conference, UC Davis; 2/03
- AGU invited speaker, Spring Meeting 2002, Washington DC.
- Geological Society of America invited speaker, Annual Meeting 2001, Boston
- UC Berkeley Environmental Engineering Series, 11/01
- AGU invited speaker Fall Meeting 2001, San Francisco
- IAHS Kovacs Colloquium Speaker: Groundwater Resources at Risk, Paris, 06/02
- AGU invited speaker, Spring Meeting 2001
- Boise State Geology Seminar Series, Aquifer characterization, 11/00
- UC Davis Hydrology Seminar Series, 12/00
